YES! I want to select a design from the Eagle Parade design portfolio - featuring approved, juried design entries from over 100 artists. Artists featured in the design portfolio were selected after a rigorous juried process. In addition to a pleasing, creative design, artists were selected for inclusion after reviewing examples of their completed works and past projects, resumes, and a detailed explanation of how they plan to take their design from conceptual stage to completed work. This thorough review process will help ensure that we will end up with the best works displayed in our community! ***The Eagle Parade strongly recommends this choice!***

No. I will provide my own artist.
